

1	<b>Agaricus Blazei Murill</b>  215-1 Hiraoka Shinanomachi Kamiminochigun Nagano-ken, 389-1315 Japan  <b>Phone:</b> 81(0)26-255-5581  <b>Fax:</b> 81(0)26-255-6733	<b>POWER FULL HEALTH FOODS Corp.</b>  Agaricus blazei Murill (subrufescens) is an edible, medicinal mushroom with characteristic, somewhat sweet taste and the fragrance of almonds, that has traditionally been used against a wide range of diseases, including cancer, chronic hepatitis and diabetes. It's also known under the names of Almond mushroom, Cogumelo de Sol, da Vida or de Deus (mushroom of the Sun, Life and God) in Brazil or Himematsutake (princess matsutake) in Japan.
2	<b>Alpha lipoic Acid</b>  490 Boston Post Road Sudbury, MA 01776  <b>Phone:</b> (800)753-2277  <b>E-mail:</b> <a href="mailto:JLehrberg@purecaps.com">JLehrberg@purecaps.com</a>  <a href="https://www.pureencapsulations.com/alpha-lipoic-acid-600-mg-2827.html">https://www.pureencapsulations.com/alpha-lipoic-acid-600-mg-2827.html</a>	Water and lipid soluble antioxidant; supports glucose metabolism and nerve health.  Alpha lipoic acid is both water and fat soluble which allows it to function in almost any part of the body as an antioxidant. A key component of the metabolic process, alpha lipoic acid produces energy in muscles and directs calories into energy production. In addition, it helps maintain healthy glucose metabolism, supports the nervous system and provides nutritional support for healthy liver function. In one study, alpha lipoic acid decreased serum lactate and pyruvate and promoted healthy glucose metabolism in lean and overweight individuals. Alpha lipoic acid supported nerve health in subjects who participated in a randomized, double-blind, placebo-controlled, multicenter trial. The ability of alpha lipoic acid to modulate nitric oxide metabolite activity and to promote healthy microcirculation accounted for its ability to promote nerve cell health in two separate studies.
3	<b>Amygdalin (B17)</b>  <a href="http://www.novodal.in.com/b17-distributors.html">http://www.novodal.in.com/b17-distributors.html</a>	<b>Laetrile</b> is a partly man made (synthetic) form of the natural substance <b>amygdalin</b> . Amygdalin is a plant substance found naturally in raw nuts and the pips of many fruits, particularly apricot pips, or kernels. It is also present in plants such as lima beans, clover and sorghum. There is no scientific evidence to support claims that laetrile or amygdalin can treat cancer or any other illness. Despite this it has been promoted as an alternative cancer treatment. In the 1970s, laetrile was widely promoted as an anti cancer agent either on its own or as part of a programme with a particular diet, high dose vitamin supplements, and pancreatic enzymes. We recommend that you don't replace your conventional cancer treatment with any type of alternative cancer therapy, such as laetrile. Laetrile can cause serious side effects in some people so we don't recommend that you use laetrile alongside your cancer treatment.
4	<b>Angiostop</b>  <a href="https://chi-health.com/search?q=angiostop">https://chi-health.com/search?q=angiostop</a>  1435 N. Brasher Street Anaheim, CA	Helps maintain normal immune health.

		<p>92807</p> <p><b>Phones:</b> 714-777-1542 800-457-5708</p> <p><b>E-mails:</b> <a href="mailto:postmaster@chi-health.com">postmaster@chi-health.com</a>  <a href="mailto:chimailing@gmail.com">chimailing@gmail.com</a></p>	
5	<b>Apigenin</b>	<p><b>Swanson</b> <a href="https://www.swansonvitamins.com/swanson-ultra-apigenin-50-mg-90-caps">https://www.swansonvitamins.com/swanson-ultra-apigenin-50-mg-90-caps</a></p> <p><b>E-mail:</b> <a href="mailto:international@swansonvitamins.com">international@swansonvitamins.com</a></p>	<p>Pure grapefruit-derived flavonoid</p> <p>Preliminary research shows potential for cellular health</p> <p>Apigenin (4',5,7-trihydroxyflavone), found in many plants, is a natural product belonging to the flavone class that is the aglycone of several naturally occurring glycosides.</p> <p>Apigenin induces autophagy (a kind of cellular waste-recycling system) in leukemia cells, which may support a possible chemopreventive role. Induced autophagy interferes with the action of the chemotherapy drug vincristine. Apigenin is a potent inhibitor of CYP2C9, an enzyme responsible for the metabolism of many pharmaceutical drugs in the body. Apigenin dimers can reverse the highest level of drug resistance found in cancer stem cells.</p> <p>Apigenin has been shown to prevent renal damage caused by ciclosporin in rats, associated with reduced expression of the cell death mediator bcl-2 in histopathological sections. Ciclosporin enhances the expression of transforming growth factor-<math>\beta</math> in the rat kidney, which signifies accelerated apoptosis. Therefore, transforming growth factor-<math>\beta</math> and apoptotic index may be used to assess apigenin and its effect on ciclosporin-induced renal damage.</p>
6	<b>Aromat8-PN™</b>	<p><b>Xymogen</b> <a href="https://www.xymogen.com/products/product-detail.aspx?pid=347">https://www.xymogen.com/products/product-detail.aspx?pid=347</a></p> <p><b>Phone:</b> 1-800-647-6100</p>	<p><b>Aromat8-PN™</b> delivers a unique, proprietary blend of 8-prenylnaringenin (8-PN) from hops and plant-lignan extract at clinically relevant levels. Research suggests lignans and 8-PN can support the body's natural process of healthy aromatase activity and exert phytoestrogen (e.g., enterolactone) and antioxidant activity. This all-natural formula may support cardiovascular, bone, breast, and prostate health and help relieve normal menopausal discomforts.</p>
7	<b>Artecina®</b>	<p><b>Thorne Labs</b> <a href="http://www.thorne.com/Products/Gastrointestinal-Health/General_GI_Support/prd~SF736.jsp">http://www.thorne.com/Products/Gastrointestinal-Health/General_GI_Support/prd~SF736.jsp</a></p> <p><b>Phone:</b> 1-800-228-1966</p>	<p><b>Artecina®</b> herbal extract of <i>Artemisia annua</i> for promoting gut health. <i>Artemisia annua</i> (Chinese wormwood or Sweet Annie), a member of the Compositae family, acts as a bitter and carminative, and has been used traditionally for nutritional support of the gastrointestinal tract. It can also promote digestion by enhancing secretion of digestive enzymes and bile. Its most important mechanism of action is to help maintain a healthy balance of normal bacteria in the intestines.</p>
8	<b>Artesunate</b>	<p><b>Ancalima Lifesciences Ltd.</b> <a href="http://www.ancalima.com/">http://www.ancalima.com/</a></p> <p>50th K.M. Stone, NH-1, Murthal, Sonapat, Haryana</p> <p><b>Phone:</b> +91-130-2484108</p> <p>E-mail: <a href="mailto:customercare@ancalima.com">customercare@ancalima.com</a></p>	<p>Artesunate (AS) is a part of Artemisinin group of antimalarial drugs that is worldwide used to treat the most deadly human disease Malaria caused by apicomplexan parasite Plasmodium. It is water soluble semi-synthetic derivative of Artemisinin. The drug is on World Health Organization's List of Essential Medicines, the most important medications needed in a basic health system. The drug was originally derived from Chinese herb Artemisia annua and is highly effective blood schizonticidal agent against Plasmodium vivax and Plasmodium falciparum malaria. The drug is primarily used to treat multidrug resistant malaria and was shown to be highly potent than quinine. The drug is now recommended by WHO to treat all cases of severe malaria. Besides malaria, Artesunate is also used to treat Schistosoma haematobium infection. Besides this, Artesunate is also undergoing early research and testing for the treatment of cancer. It has been observed that Artesunate has anticancer effects in experimental models and yielded promising results for the treatment of colorectal cancer. The drug is available under various generic names (i.e. Artesunate, Artesunic Acid, ARTS, and Artesunatum) and brand names such as Amonate, Dafra, Falcigo, Ansunate, Lincoln, Activa, Artex, Artfin, Falcigo Plus, Falcinez, Larinate-MF, Plasmotrim, Pyralfin-A and Traphasunat etc.</p>
9	<b>Ascorbic Acid</b>	<p><b>Patient.co.uk</b> <a href="http://www.patient.co.uk/medicine/asc">http://www.patient.co.uk/medicine/asc</a></p>	<p>Ascorbic acid is also known as vitamin C. Our bodies need vitamin C to make a substance called collagen which is required for the health and repair of our skin, bones, teeth and cartilage. We get vitamin C from the food we eat, particularly fruit</p>

		<a href="#">orbic-acid-tablets</a> or <b>FUHUIYUAN INDUSTRIAL CO., LIMITED</b> <a href="#">www.chphplefomiqcs.com</a> Email Lin Huahai, sales manager: <a href="mailto:linchemical@chphplefomiqcs.com">linchemical@chphplefomiqcs.com</a>  <b>Phone:</b> 0086-592-5973571 0086-13328782737 <b>Fax:</b> 0086-592-5973571	and vegetables. A lack of vitamin C in our diet over a period of time can lead to a condition called scurvy, although this is rare in the UK. Symptoms of scurvy include bruising or bleeding easily, and joint and muscle pains. It has also been suggested that a lack of vitamin C may cause poor wound healing and problems fighting infection, although this has not been proved. Vitamin C deficiency can be treated with supplements of vitamin C (as ascorbic acid tablets) and eating foods which are rich in vitamin C. Ascorbic acid is an ingredient of a number of vitamin preparations and some cough and cold remedies that are available to buy from retail outlets.
10	<b>Avemar pulvis</b>	<b>Concord Health products</b>	<p>Avemar is an all-natural, clinically proven, dietary supplement for cancer patients. Medical experts recognize Avemar as an effective supportive cancer treatment and recommend complementing the diet of concerned patients with Avemar. Scientific studies showed that Avemar also enhances the efficacy of conventional oncological treatments (surgery, radio-, chemo- and immunotherapy). With regular intake of Avemar, patients can relish a better quality of life and can enjoy a better lifestyle. Avemar is available in granulate and film-coated tablet form.</p> <p>The active ingredient is Avemar pulvis, an all-natural compound made from fermented wheat germ extract using patented biotechnological processes. Since the invention of Avemar pulvis significant research has been undertaken - not only in the laboratory, but in test animals and human cancer patients as well. Numerous scientific studies have been conducted to study its safety profile and its effectiveness, including in vitro, in vivo and human clinical research</p>
11	<b>Boswellia Serratta</b>	<b>Pure Encapsulations, Inc.</b>  490 Boston Post Road Sudbury, MA 01776  <b>Phone:</b> <b>(800)753-2277</b>  <b>E-mail:</b> <a href="mailto:JLehrberg@purecaps.com">JLehrberg@purecaps.com</a>  <a href="https://www.pureencapsulations.com/boswellia.html">https://www.pureencapsulations.com/boswellia.html</a>	Herbal support for minor joint discomfort.  Boswellia serrata is an Ayurvedic herb that has a long history of use for connective tissue and joint support. Boswellic acids, the active terpenoid constituents of boswellia, may maintain healthy 5-lipoxygenase enzyme activity and healthy leukotriene metabolism. In addition, boswellic acids may maintain healthy human leukocyte elastase enzyme activity. The combination of these two actions is believed to be unique to boswellia. As a result of its effect on 5-lipoxygenase, boswellia also plays a key role in supporting colon health.  Boswellia extract, standardized to contain 60% boswellic acids, promotes healthy joint, connective tissue and colon function primarily by maintaining healthy leukotriene metabolism.

It is useful for bacterial pneumonia, acne, chlamydia infections, early Lyme disease, cholera and syphilis. It is also useful for the treatment of malaria when used with quinine and for the prevention of malaria. Doxycycline can be used either by mouth or intravenously.</p> <p>Common side effects include diarrhea, nausea, vomiting, a red rash, and an increased risk of a sunburn. If used during pregnancy or in young children may result in permanent problems with the teeth including changes in their color. Its use during breastfeeding is probably safe. Doxycycline is a broad-spectrum antibiotic of the tetracycline class. Like other agents of this class it kills bacteria and protozoa by inhibiting protein production.</p> <p>In addition to the general indications for all members of the tetracycline antibiotics group, doxycycline is frequently used to treat Lyme disease, chronic prostatitis, sinusitis, pelvic inflammatory disease, acne, rosacea and rickettsial infections.</p>
20	<b>Frankincense</b>	<b>Young Living</b> <a href="https://www.youngliving.com/en_EU/products/frankincense">https://www.youngliving.com/en_EU/products/frankincense</a>	<p>Frankincense oil is derived from the Boswellia sacra tree and trees of a similar species. The Boswellia sacra is characterized by its thin and peeling bark, tangled branches, and clustered leaves at the end of the branches. The trunks of these trees often have more than one stem; however, some have only one trunk. These trees can grow up to 8 meters and are commonly found growing on rocky slopes and southern</p>

		<a href="#">e-essential-oil</a>  Young Living (Europe) Limited Building 11, Chiswick Park 566 Chiswick High Road, London W4 5YS  <b>Phone:</b> +44-0-800-9179438	coastal mountains. The Boswellia sacra is native to Ethiopia, northern Somalia, south-western Oman, and southern Yemen.  There are four main species of Boswellia that produce true frankincense. Resin from each of the four is available in various grades. The grades depend on the time of harvesting; the resin is hand-sorted for quality.  Frankincense oil contains a complex mixture of monoterpenes such as alpha-pinene, Limonene, alpha-Thujene, and beta-Pinene. This intricate mixture of components works together to make an oil with many uses and benefits. The unique chemical constituents contribute to Frankincense essential oil's renewing effects when applied topically and ability to support diverse cells in the body when taken internally. The monoterpenes also contribute to the aromatic benefits of Frankincense oil, including its ability to promote relaxation and a sense of focus.

ATP is the main energy source for the majority of all cellular functions. It must be constantly regenerated, because without adequate ATP, our cells cannot function properly.  This product consists of two compounds, which already exist in human bodies, oxaloacetic acid and Vitamin C. Thus, it is not a drug. It is rather a nutritional supplement, which optimises clear cognitive potential and supports brain health.  Oxaloacetate has been found to increase lifespan and health span, protect brain neurons and brain mitochondrial DNA, and provide potent antioxidant protection.
34	Paw Paw	Nature's Sunshine	Benefits:

	<b>Cell-Reg™</b>	<b>Products</b>  <a href="http://www.naturessunshine.com/us/product/paw-paw-cell-reg-180-caps/sku-515.aspx">http://www.naturessunshine.com/us/product/paw-paw-cell-reg-180-caps/sku-515.aspx</a>  <b>Phone:</b> 1-800-223-8225	<ul style="list-style-type: none"> <li>• Supports the immune system.</li> <li>• Selectively affects specific cells.</li> <li>• Modulates ATP production in specific cells.</li> <li>• Modulates blood supply to specific cells.</li> </ul> <p>How It Works:</p> <p>The active compounds in Paw Paw Cell-Reg are a mixture of over 50 acetogenins. Acetogenins are active compounds that affect the production of ATP (Adenosine Triphosphate) in the mitochondria (the powerhouse) of the cell. ATP is the cells' major source of energy. Acetogenins selectively modulate the production of ATP in specific cells. Modulating the production of ATP affects the viability of specific cells and may help modulate the blood supply to them. Acetogenins also support and enhance the effectiveness of conventional medical regimens.</p>
35	<b>Poly-MVA</b>	<b>POLY-MVA</b> <a href="http://www.polymva.com/">http://www.polymva.com/</a>  <b>Phone:</b> 1-800-960-6760	<p>Poly-MVA is a uniquely formulated combination of minerals, vitamins and amino acids designed to support cellular energy production and promote overall health. It may also replace specific nutrients that may be depleted during certain therapies. Poly-MVA is a breakthrough supplement that may assist in boosting immune response and support healing damaged cells. It is a unique formulation contains a proprietary complex of Alpha-Lipoic Acid and the mineral palladium (which we refer to as LAPd), Vitamins B1, B2 and B12, Formylmethionine, N-Acetyl Cystiene, and trace amounts of Molybdenum, Rhodium, and Ruthenium. It is designed to provide energy for compromised body systems by targeting the energy charge transfer mechanism of our cells (the mitochondria) while protecting them as well from free radicals. Dr. Garnett also noted that in this process it also increases the charge density of DNA within the cell.</p> <p>Poly-MVA is a safe and powerful supplement. Definitive human studies continue and support what previous and ongoing case studies indicate that the Poly-MVA complex is beneficial in promoting optimum health, protecting cell DNA and RNA, assisting the body to produce energy to function properly. Poly-MVA is a unique complex attached to a powerful antioxidant which research shows can neutralize harmful free radicals that damage our cells and cause aging. These free radicals are then converted into a usable energy source for our cells.</p>
36	<b>Polyphenole CA</b>	<b>MITOcare</b>  <a href="http://www.mitoshop.de/Artikeldetails/Polyphenole-CA.aspx">http://www.mitoshop.de/Artikeldetails/Polyphenole-CA.aspx</a>	<p>MITOcare® POLYPHENOLE CA is a pure natural product from high-quality and carefully selected polyphenol-containing plants such as genistein, Rhodiola rosea, schisandra, amlabers and other extracts.</p> <p>The product contains a high content of genistein. The isoflavonoid is suitable as a phytoestrogen for specific therapies.</p> <p>Polyphenols are secondary crops based on a phenolic structure. In this context, polyphenols can be classed as such when they can be recycled to the phenol in their chemical structure and are not formed and consumed in the primary metabolism of the plants.</p> <p>At present, about 4,000 flavonoids are known, which largely function as water-soluble plant pigments. The flavonoids give the fruits and vegetables their bright color and have complex protective properties.</p> <p>In their antioxidant efficacy, polyphenols are superior to vitamins.</p>
37	<b>Pure Quercetin</b>	<b>Pure Encapsulations, Inc.</b>  490 Boston Post Road Sudbury, MA 01776  <b>Phone:</b> (800)753-2277  <b>E-mail:</b> <a href="mailto:JLehrberg@purecaps.com">JLehrberg@purecaps.com</a>  <a href="https://www.pureencapsulations.com/quercetin-3562.html">https://www.pureencapsulations.com/quercetin-3562.html</a>	<p>Quercetin is a type of flavonoid (a plant pigment) that acts as an antioxidant and serves as the structural building block for many other members of the flavonoid family, including rutin, quercitrin and hesperidin. Research suggests a supportive role for cellular, immune and cardiometabolic health.</p>

38	Quercetin	<p><b>Thorne Labs</b></p> <p><a href="https://www.thorne.com/products/dp/quercetin-phytosome">https://www.thorne.com/products/dp/quercetin-phytosome</a></p> <p><b>Phone:</b> 1-800-228-1966</p>	<p>Widely distributed in the plant kingdom, quercetin is the most abundant of the flavonoid molecules. It is found in many often-consumed foods, including apples, onions, teas, berries, vegetables of the cabbage family, seeds, and nuts. Quercetin is thought to be an essential component of the activity of many plants.</p> <p>All flavonoid molecules are similar in their chemical structure; however, small changes in these molecules dramatically change their solubility, activity, and affinity for certain tissues. It appears quercetin is poorly absorbed; however, slightly altering the molecule significantly increases the molecule's water solubility and absorption. Quercetone contains Thorne's water-soluble quercetin.</p> <p>Quercetin appears to have many beneficial effects on human health, including cardiovascular protection, as well as protection of the gastrointestinal tract. A number of quercetin's effects appear to be due to its antioxidant activity. Quercetin scavenges free radicals and inhibits oxidation of LDL cholesterol. By itself, and paired with vitamin C, quercetin can reduce the incidence of oxidative damage to skin and nerves caused by glutathione depletion.</p>
39	Resveratrol	<p><b>IHerb</b></p> <p><a href="http://www.iherb.com/Country-Life-Resveratrol-Plus-120-Vegan-Caps/11924">http://www.iherb.com/Country-Life-Resveratrol-Plus-120-Vegan-Caps/11924</a></p>	<p>Resveratrol supports the body's antioxidant system. Through this process Resveratrol may provide antioxidant support as well as promote the activation of the SIRT1 gene, often referred to as the longevity gene. Resveratrol has been studied for its support of cardiovascular health.</p>
40	Ribraxx	<p><b>BioMedica Nutraceuticals</b></p> <p><a href="http://www.biomedica.com.au/">http://www.biomedica.com.au/</a></p> <p>Unit 14, 34-36 Ralph Street, Alexandria NSW, PO Box 7052 Australia 2015</p> <p><b>Phone:</b> 1300 884 702 or (02) 8339 0539</p> <p><b>E-mail:</b> <a href="mailto:info@biomedica.com.au">info@biomedica.com.au</a></p>	<p>Ribraxx consist of arabinoxylan MGN-3, compound extracted from rice bran that has been enzymatically broken down by shiitake mushroom extract. It is rich in polysaccharides and proteoglycans. Scientific studies show a boosting of natural killer cell activity.</p>
41	Salicinium	<p><b>Perfect Balance</b></p> <p><a href="http://www.shop.shoppingforperfectbalance.com/Salicinium-Salicinium.htm">http://www.shop.shoppingforperfectbalance.com/Salicinium-Salicinium.htm</a></p> <p><b>Phone:</b> 1-888-262-5903</p>	<p>Salicinium is the chemically pure form of the proprietary molecule for use in I.V. solution by Salicinium-registered <b>Doctors only.</b></p>
42	Salvestrol Platinum	<p><b>Salvestrol</b></p> <p><a href="http://www.salvestrol.ca/products.asp">http://www.salvestrol.ca/products.asp</a></p> <p><b>Phone:</b> 1-866-837-1523</p> <p><b>Email:</b> <a href="mailto:sales@salvestrol.ca">sales@salvestrol.ca</a></p>	<p>Salvestrols are plant derived compounds (phytonutrients) essential for wellbeing that cannot be made in the body and must therefore be supplied through our diet. As a group, they are chemically unrelated substances except for the similar manner in which they confer their benefits, that is, as a result of their action with a particular enzyme. This enzyme is present only in malfunctioning cells and when it encounters a salvestrol it converts it into a form which is toxic to the sick cell. Because the enzyme is not present in healthy cells the Salvestrols exert no ill effects on them.</p>
43	Sodium dichloroacetate (DCA)	<p><b>DCA Lab</b></p> <p><a href="http://www.dca-lab.com/">http://www.dca-lab.com/</a> Supply from: <a href="http://www.dca-lab.com/dca-shop">http://www.dca-lab.com/dca-shop</a></p>	<p>Sodium dichloroacetate (DCA) is a white color, soluble in water crystalline powder with a slightly bitter taste.</p> <p>Pure DCA has alkaline pH of an aqueous solution, so DCA we supply contains sodium phosphate additive that provides a stable aqueous DCA neutral pH. (Please note that sodium phosphate is used in medicine and food as pH stabilizer).</p> <p>Phosphate additives not only provide stability in DCA and DCA solutions but also prolong shelf life.</p>

44	<b>Super Artemisinin</b>	<b>Allergy Research Group</b> <a href="http://www.allergyresearchgroup.com/Super-Artemisinin-60-Vegetarian-Caps-p-274.html">http://www.allergyresearchgroup.com/Super-Artemisinin-60-Vegetarian-Caps-p-274.html</a>  <b>Phone:</b> 1-800-545-9960,  Worldwide 1-510-263-2000	Pure artemisinin or Qinghaosu, the active constituent of the herb sweet wormwood ( <i>Artemisia annua</i> ), and oil derived from the same plant, total 200 mg of material per capsule. Good quality <i>Artemisia annua</i> contains 0.3-0.5% artemisinin, so pure artemisinin provides hundreds of times more of the active constituent artemisinin than the whole herb itself. Allergy Research Group does independent potency assays on every batch (using HPLC). Allergy Research Group artemisinin is minimum 98.5% pure, and does not contain thujone.
45	<b>Theaflavin</b>	<b>Life Extension</b> <a href="http://www.lifeextension.com/vitamins-supplements/item01304/theaflavin-standardized-extract">http://www.lifeextension.com/vitamins-supplements/item01304/theaflavin-standardized-extract</a>  <b>Phone:</b> 001-954-766-8433 1-800-544-4440	Theaflavin Standardized Extract contains a number of beneficial flavonoids found naturally in tea leaves that help support levels of cholesterol that are already within the normal range. Theaflavins have been shown in human studies to protect against LDL oxidation and favorably affect endothelial function,9-12 thus helping to maintain healthy circulation. Scientists have also found that black tea flavonoids possess strong antioxidant properties, which can help mitigate oxidative damage to cells and tissues from free radicals.13-16 In addition, theaflavins have been found to be helpful in regulating key inflammatory mediators in the body, thus helping to preserve cellular integrity
46	<b>Thymex</b>	<b>Standard Process Inc</b> <a href="https://www.standardprocess.com/Products/Standard-Process/Thymex">https://www.standardprocess.com/Products/Standard-Process/Thymex</a>  <b>Phone:</b> 001 800-558-8740	Thymex Supports the Thymus Gland With Bovine Thymus Cytosol Extract, Calcium Lactate, and Magnesium Citrate. Thymex helps kick-start the thymus gland, the center of the immune system, when antibody production is needed. The thymus is the key immune gland, especially in newborn infants and young children. It pre-processes T-lymphocytes after their origination and migration from bone marrow. In the thymus, the cells divide rapidly and develop diversity for reacting against different specific antigens. Thymex contains a Cytosol extract of the thymus gland, the core of the immune system. Such extracts contain the gland's steroid and hormone precursors, enzymes, coenzymes and synergistic cofactors produced by the cell. The main purpose of these aqueous tissue extracts is to support the patients' hormone-dependent tissue functions until the tissue is able to do so itself. The minerals calcium and magnesium are critical to human nutrition. Bone mineralization is one of their primary nutritional functions. Calcium comprises about 98 percent of the mineral component of bone and tooth structure. Calcium is also essential for various other body functions, including blood coagulation, muscle contraction, nerve conduction, maintenance and function of cell membranes and membrane permeability, and the proper functioning of many enzymes. The magnesium in this product aids in the uptake of calcium lactate by the body. However, on its own, magnesium is a critical dietary substance. It is an essential element for over 300 enzymes in the body and among its many roles; it is a cofactor for ATP metabolism in the body.
47	<b>Ukrain</b>		Ukrain (NSC-631570) is claimed to be a semisynthetic compound of thiophosphoric acid (triaziridide) and the alkaloid chelidonine derived from the common weed, <i>Chelidonium majus</i> (greater celandine), which grows primarily in Europe and Asia.
48	<b>VascuStatin</b>	<b>Allergy Research Group</b> <a href="http://www.allergyresearchgroup.com/VascuStatin-Formula-120-Caps-p-249.html">http://www.allergyresearchgroup.com/VascuStatin-Formula-120-Caps-p-249.html</a>  <b>Phone:</b> 1-800-545-9960,  Worldwide 1-510-263-2000	VascuStatin Formula is a water extraction of the leaves of the herb <i>Convolvulus arvensis</i> , commonly known as bindweed, and is rich in proteoglycan mixture (PGM). The bindweed contained in VascuStatin is grown in Wyoming, and the toxic alkaloids are removed by a proprietary process.
49	<b>Virxcan</b>	<b>Virxcan</b>  <a href="http://virxcan.com/index.html">http://virxcan.com/index.html</a>	Thousands of people worldwide have used Virxcan tablets and salve as a natural means to remove unwanted <ul style="list-style-type: none"> <li>• Moles</li> <li>• Warts</li> </ul>

			<ul style="list-style-type: none"> <li>• and other growths.</li> </ul> <a href="#">read more</a>
50	Vitanox	<b>Standard Process Inc – Medi Herb</b>  <a href="https://www.standardprocess.com/Products/MediHerb/Vitanox">https://www.standardprocess.com/Products/MediHerb/Vitanox</a>  <b>Phone:</b> 001 800-558-8740	Vitanox contains a synergistic blend of herbs which provide strong antioxidant activity. The herbs Rosemary, Green Tea, Turmeric and Grape Seed provide phenolic diterpenes (including carnosol and rosmarinic acid), polyphenols including epigallocatechin gallate, essential oils containing sesquiterpenes, yellow pigments referred to as diarylheptanoids (including curcumin), flavonoids, triterpenoids and oligomeric procyanidins. This product is standardized to contain 83.35 mg of catechins, 70.4 mg of curcuminoids and 42.5 mg of procyanidins in each tablet to ensure optimal strength and quality. The natural substances in Vitanox: <ul style="list-style-type: none"> <li>• provide strong antioxidant activity</li> <li>• support healthy circulation and vascular integrity</li> <li>• maintain healthy connective tissue</li> <li>• support and maintain cellular health</li> </ul>
